Increase in Existing Ownership — Osaki MT Building

Tokyo, September 16, 2005 – Mori Trust Sogo Reit, Inc. (MTR) has announced its decision to acquire additional ownership in the Osaki MT Building.

1. Acquisition Summary (Planned)

- 1) Type of asset: real estate
- 2) Property name: Osaki MT Building
(hereafter the aforementioned property shall be referred to as “the Property.”)
- 3) Acquisition price: 5,656,760,000 yen (excluding purchase overheads and taxes)
- 4) Contract date: September 16, 2005
- 5) Acquisition date (planned): October 28, 2005

co-ownership ratio in the building and related land of the Property (hereafter referred to as the “additional acquisition”) in accordance with its fundamental investment policies set forth in MTR’s rules and regulations and its stance toward investment. This serves to further advance MTR’s efforts toward diversified investment in office buildings in central Tokyo and to enhance MTR’s co-ownership position and stability.

The following matters were of particular importance in MTR’s decision to undertake the additional acquisition.

(1) Location

The Property is located in the Osaki Area, serviced by JR Osaki Station at its center. The area is distinguished for its many office and other buildings, which form part of a large-scale redevelopment project. The area also boasts intensive land use attributed to the application of the Comprehensive Design System.

The Property is located in the “Osaki Business Garden,” a key component of the redevelopment project. Together with a neighboring office building, the Property is part of a unified office zone.

(2) Building specifications and facilities

The building stands 14 stories high, and has three levels underground. The standard rentable floor area is approximately 1,157 sq. m., with each floor virtually free of pillars.

Exterior walls are decorated with special-order tiles, and the entrance hall is adorned with granite, providing for a refined atmosphere. The standard floor has a free-access floor height of 70 mm and can withstand weights of up to 500 kg/sq. m (up to 800 kg/sq. m in certain areas), making it a highly competitive building.

3. Background of Acquisition

Pursuant to an agreement between the co-owners and the preferred right of first refusal, the seller (identified in item 5.) informed MTR of its intention to sell a portion of the building and related land. Following due diligence, MTR decided to exercise its rights under the aforementioned agreement and to acquire an additional portion of the Property.
