2. Reason for Sale

MTR has decided to sell the Property in accordance with its investment criteria set forth in MTR's Articles of Incorporation. The following is the background to the decision.

Facing immediate challenges in addressing the vacation of the Property by a large tenant (whose lease contract will terminate at the end of September 2015), MTR decided to sell the Property based on the judgment that the sale of the Property, rather than continuing to own it, would be more beneficial for MTR. Although sale price would fall below the book value, selling the Property was deemed the best decision considering, on a comprehensive basis, the uncertainty over the ability to secure tenants, expenses that could arise in the future, the aspect of reestablishing the portfolio, and other factors.
